

# BoothMe ;)

Founders: Shervin Shaikh, Alex Mousavi, Ramon Rovirosa

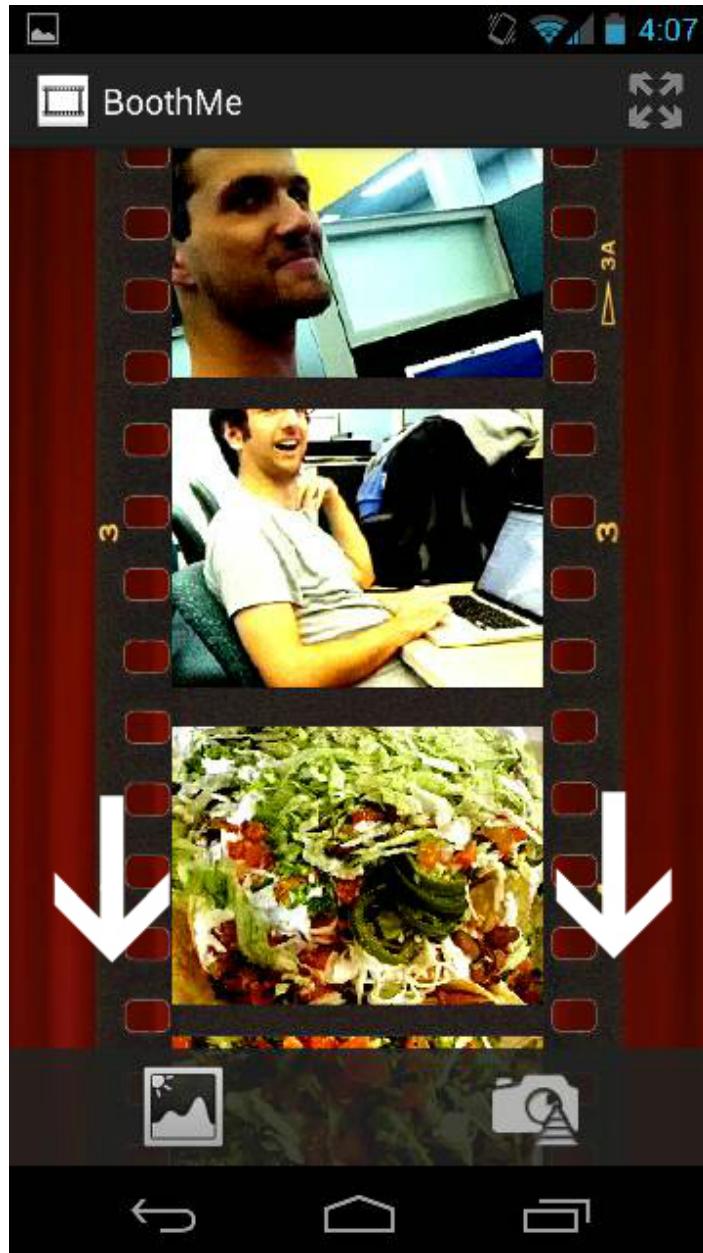

## Instruction Manual

### Home Screen Overview

1. Gallery View
2. Take a Photo
3. Fullscreen mode.

To view all saved photos on the home screen, slide up with one finger in order to scroll through the images.

1. View full screen: Press button 3 in the home screen bar to view fullscreen.

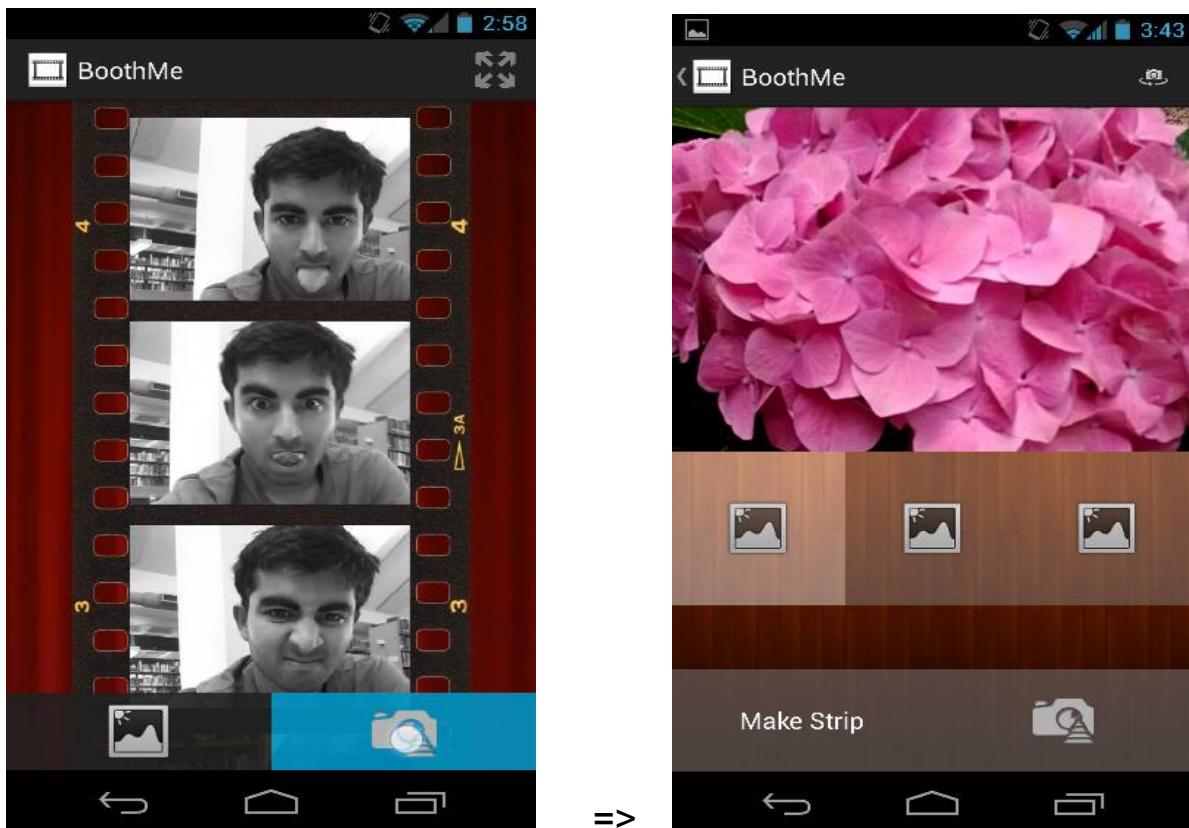

To go back to exit full screen, simply press the android back button on the bottom left corner.

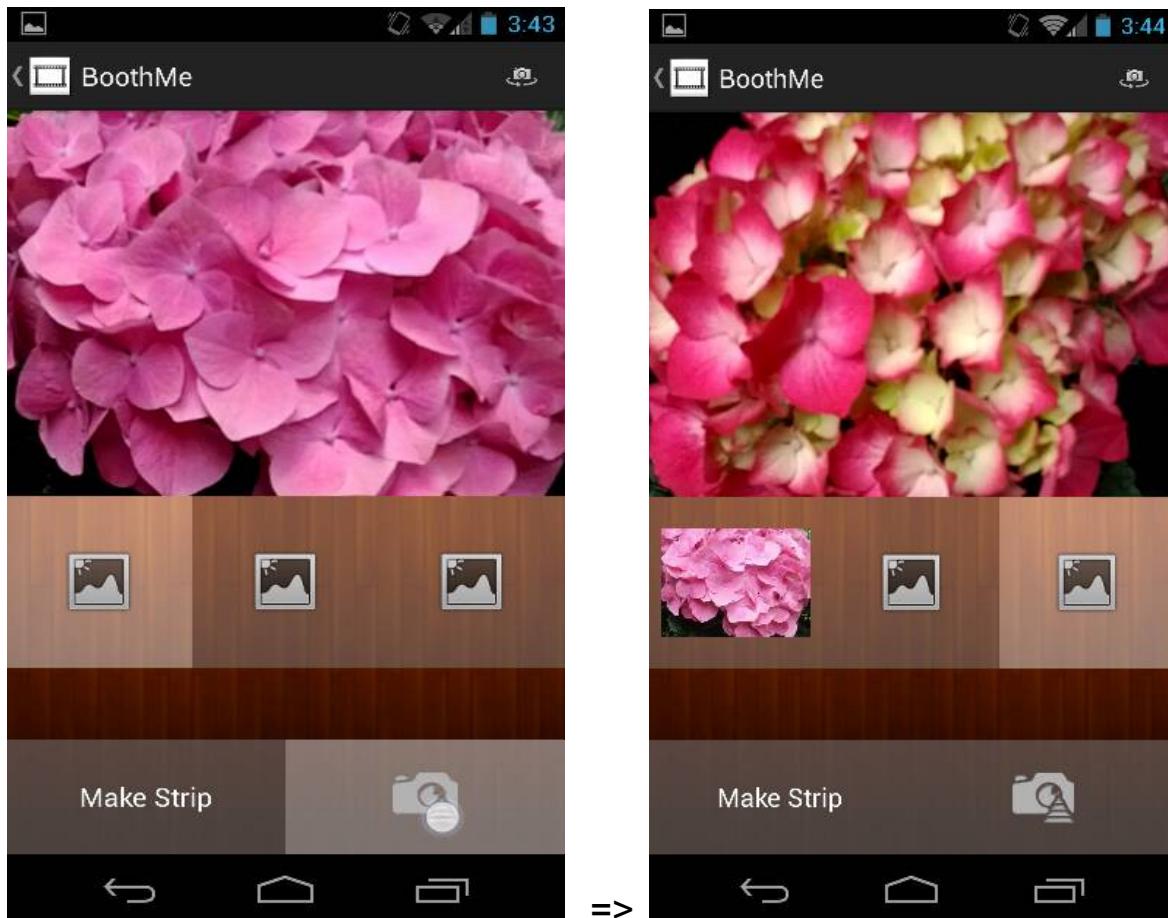

## 2a. Taking a Photo

To go to the camera view, tap on the camera button 2, on the bottom right corner.

This will lead you to the camera screen on the right hand side.

To take a photo, tap on the camera button on the right hand corner.

The image will appear in the position of the gallery box that was highlighted in white. The leftmost gallery box corresponds with the top photo strip image, the middle with the middle, and the right with the bottom photo strip image. You can tap on whichever box you want to order how you want your photos taken. By default the photos will be taken from top to bottom.

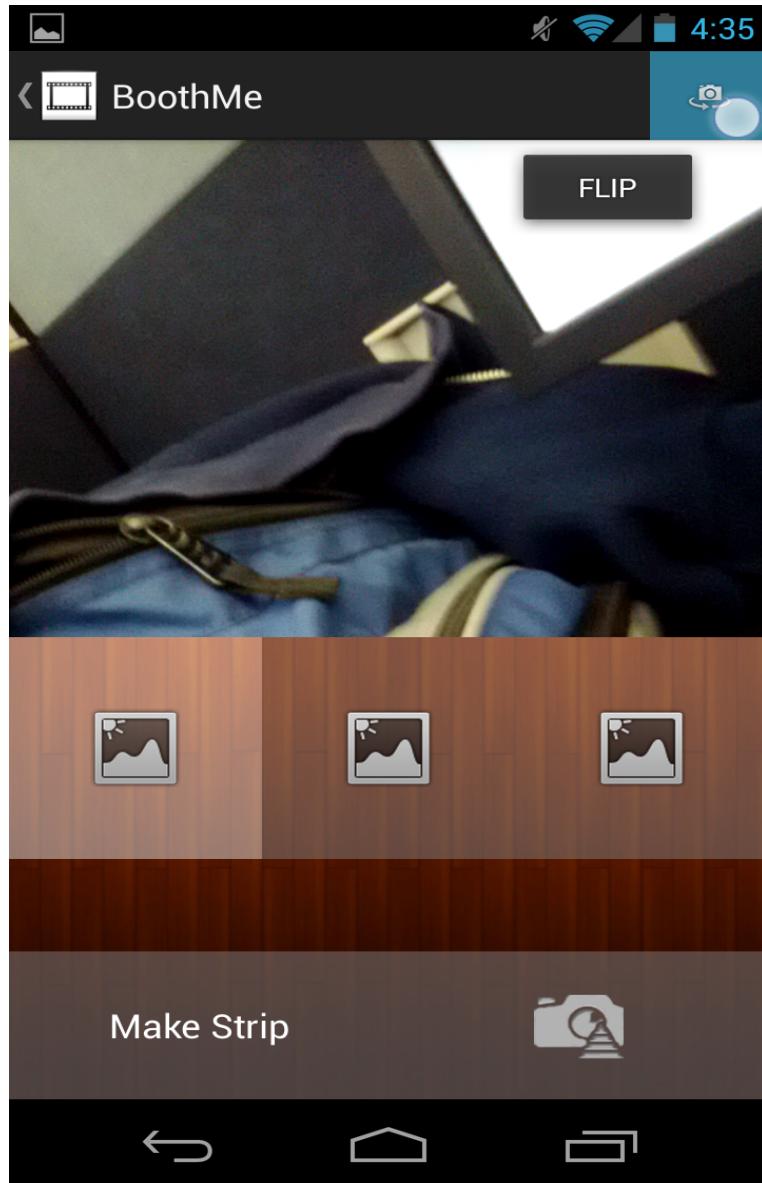

If you do not like your photo, click on the box to retake the image.

Tap on the photo screen in order to focus an image.

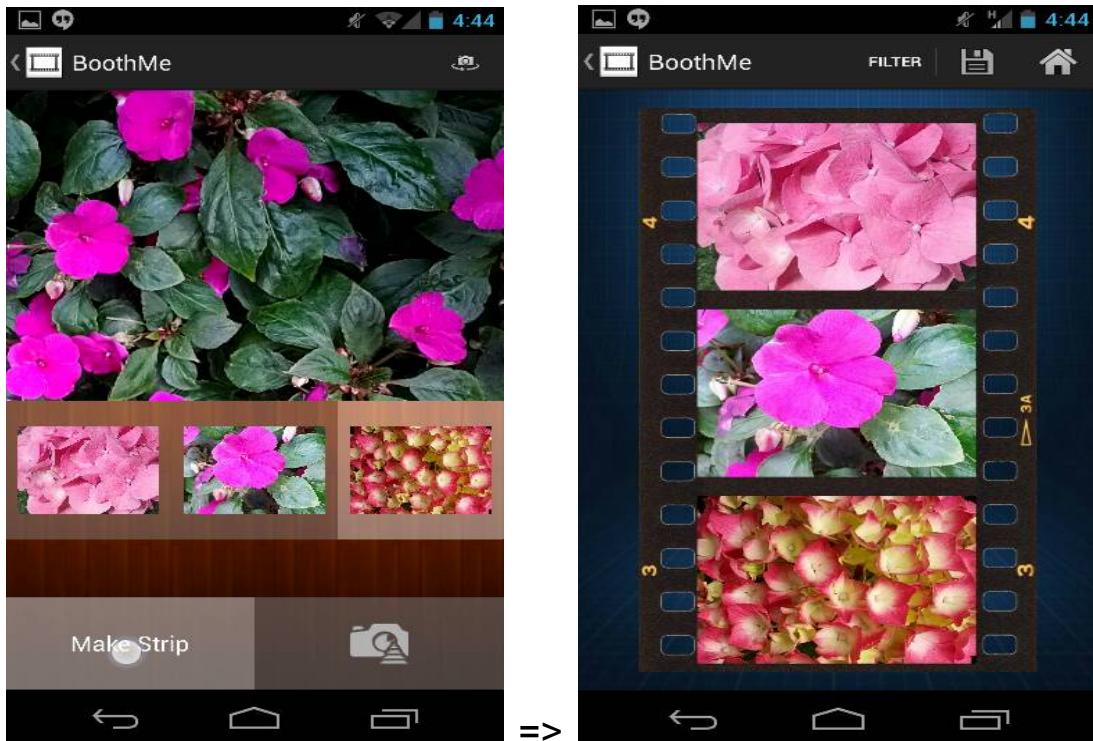

You can also tap on the back button at the top left corner to go back to the home screen.

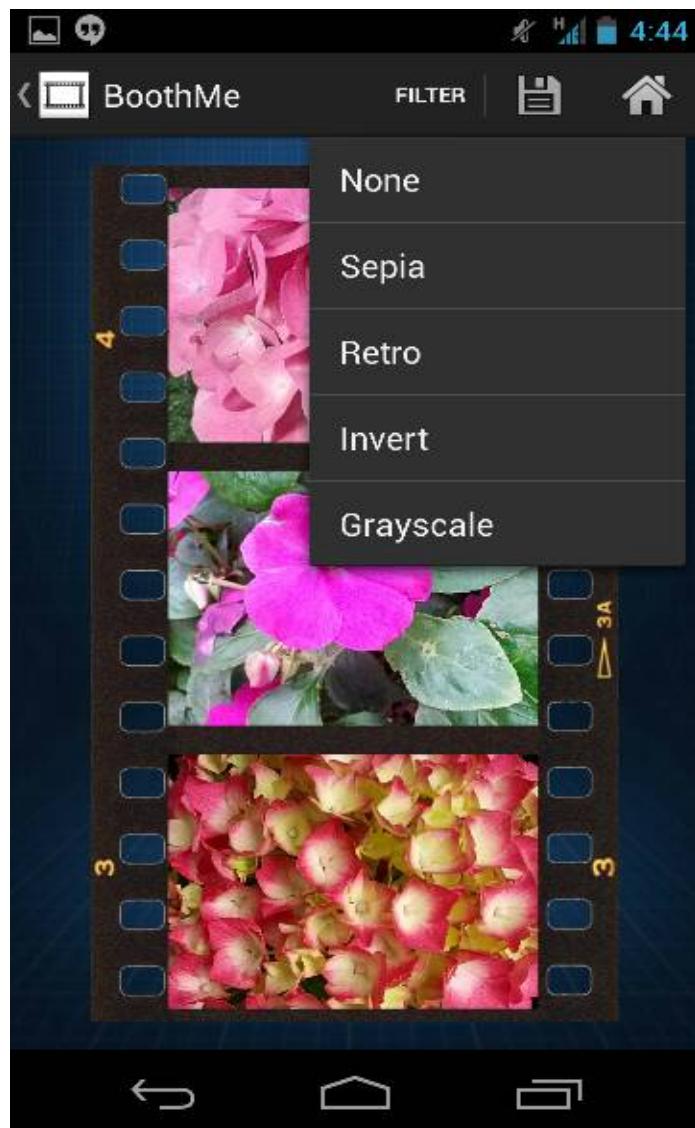

To flip to the front facing camera, tap the flip button on the top right hand corner.

Once you have the three photos you like, tap on the make strip button on the bottom left to launch to the editing view.

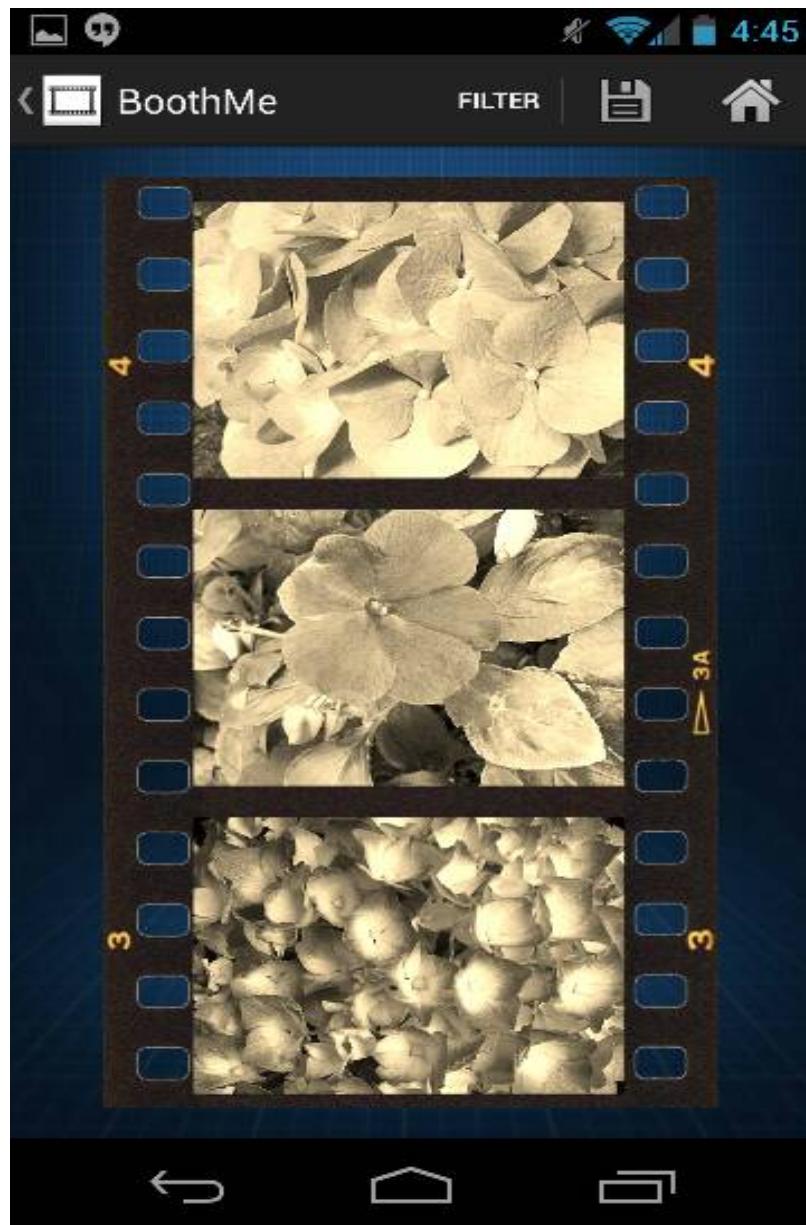

There are several filters to choose from:

## 1. None

## 2. Sepia

### 3. Retro

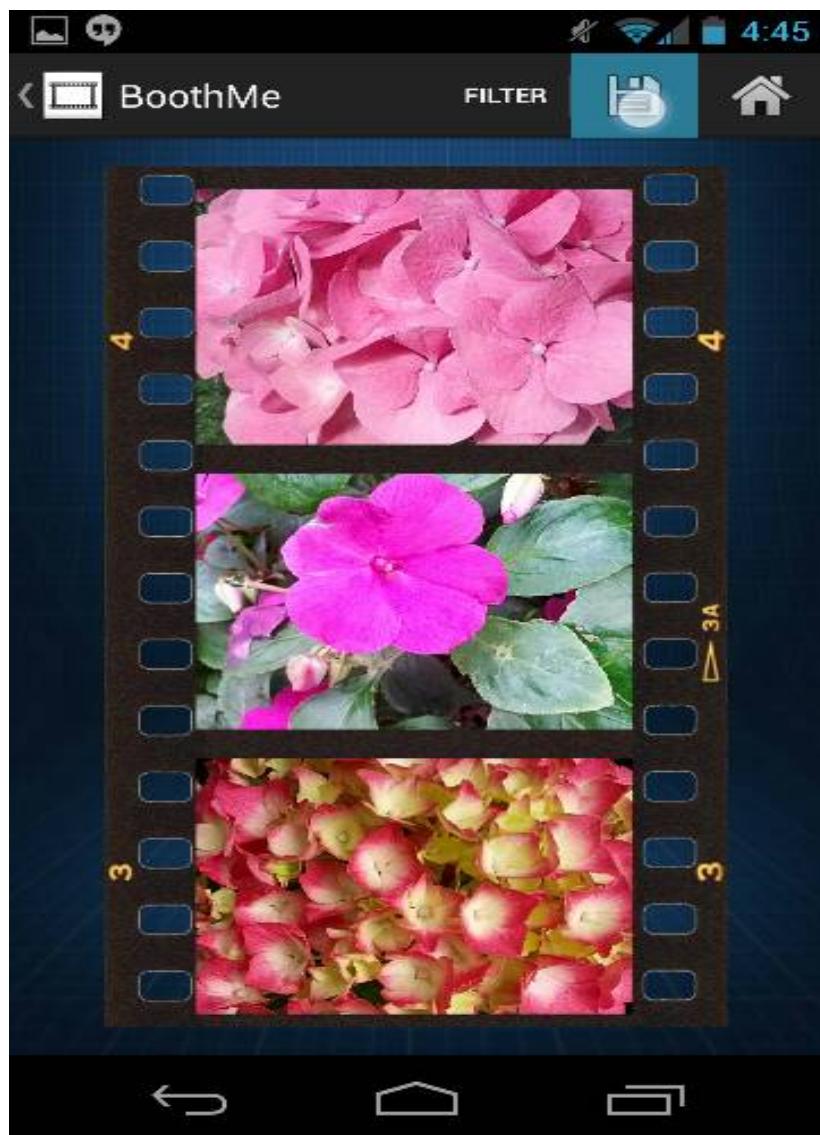

## 4. Invert

## 5. Grayscale

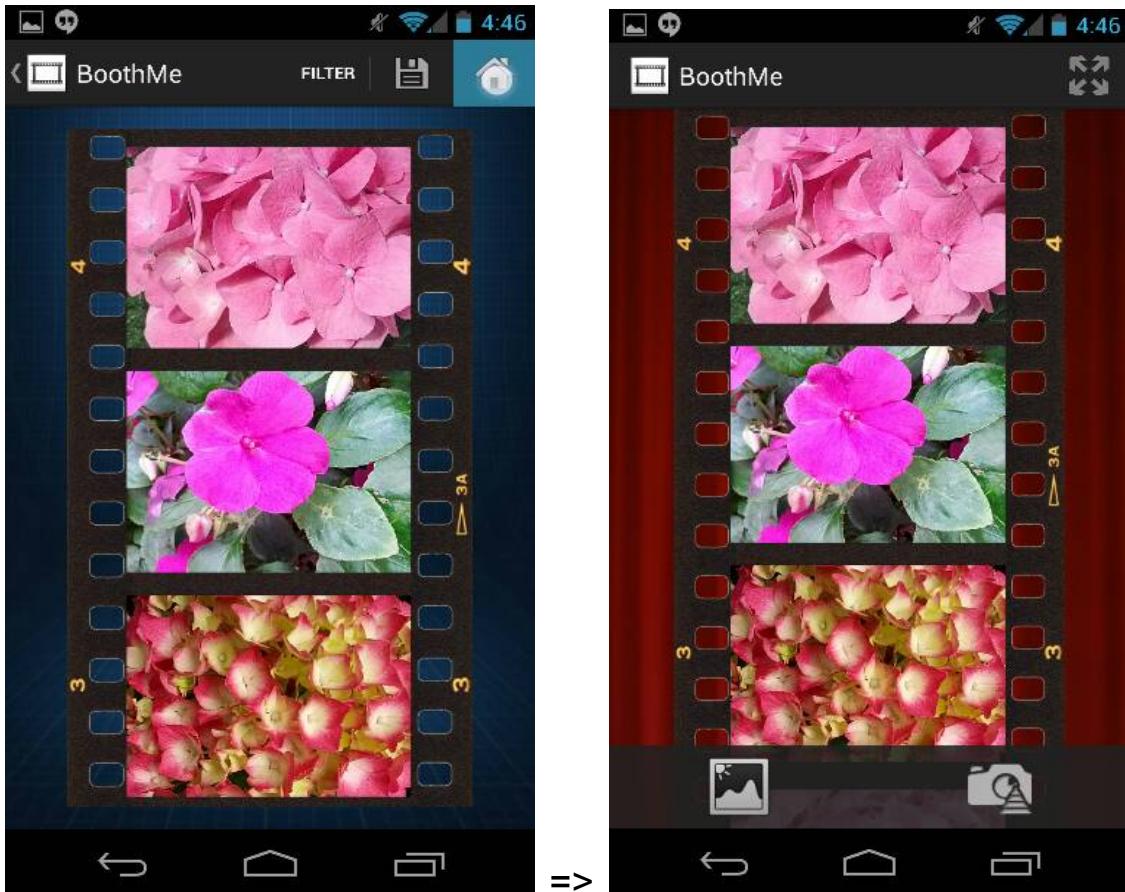

Once you have picked a photo simply tap on the save button to save the image.

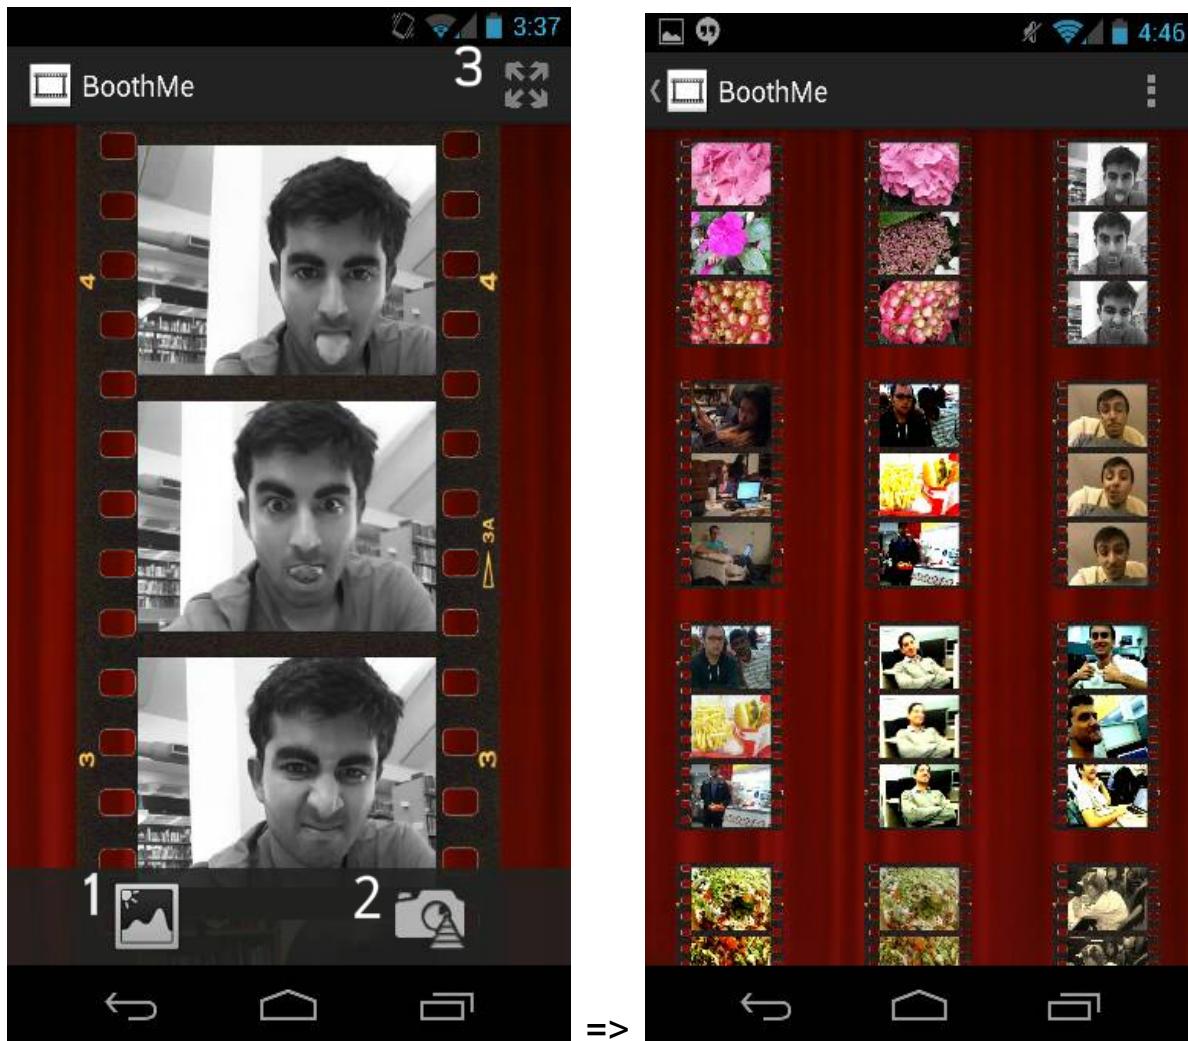

You can save as many times as you want with as many different filters and all those images will appear in your gallery and home screen.

When done editing, tap on the home button in the top right corner to go back to the home screen, but make sure to save first.

To view a gallery of all your photos tap on button labeled 1 on the bottom left corner.

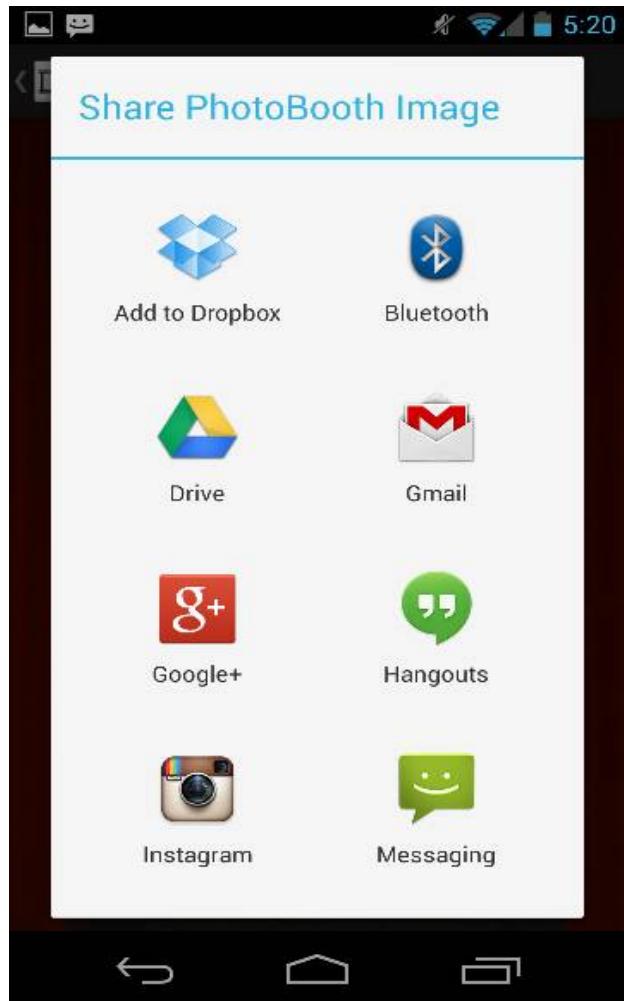

You can scroll through all your images on the gallery view by sliding a finger up on the screen.

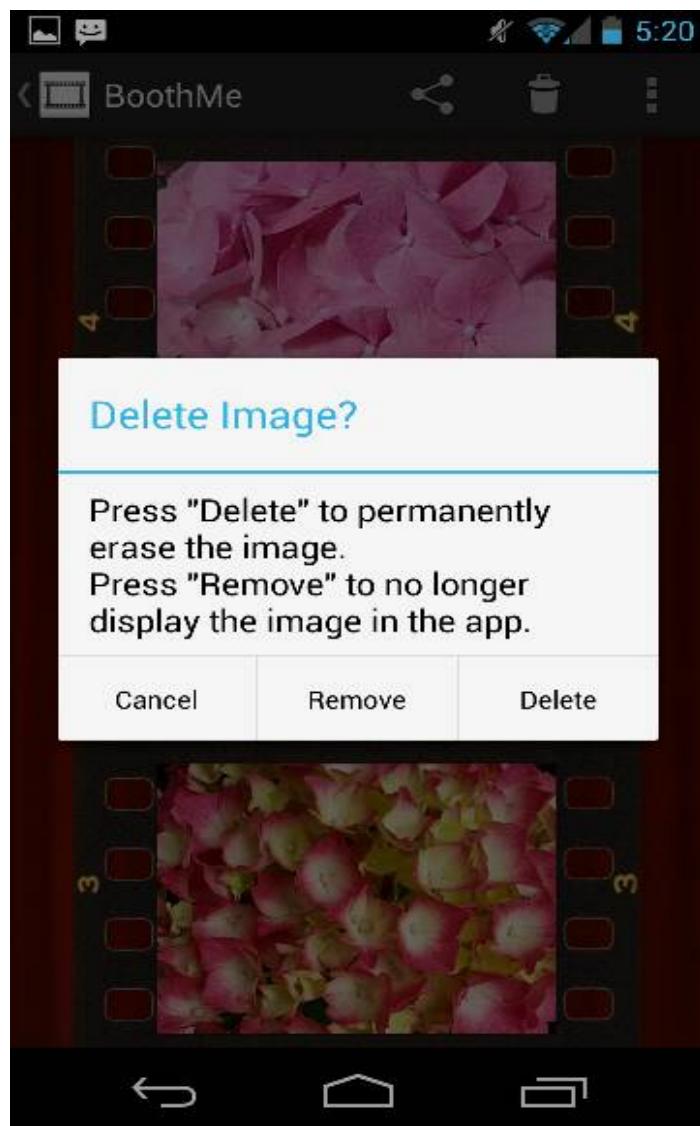

From either the home screen or the gallery view, tap on the image itself to view in full resolution and either share or delete.

Share:

Delete dialog:

Delete, removes the photo from memory, remove only gets rid of the image in app, but can still be found in your PhotoBooth folder in your android gallery albums.

Photos taken in the Boothme app can also be found in the android gallery under PhotoBooth.
